

Ivan Bukvić

Imam 36 god. rodom sam iz Podgorice, a trenutno radim u Beogradu u nacionalnoj avio kompaniji.

Moj najveći uspjeh je uspon na vrh Babin zub 2277m, koji je zahtjevan vrh, a to mi je bila tek 3. planinarska tura, tako da bih ga izdvojio kao omiljeni.

Bio sam član planinarskog kluba "PSK Komovi" iz Podgorice. Sto se tiče planinarskih tura, izdvojio bih neke, Babin zub, Vrmac, Vrsuta, Treskavac, Lovcen..

Ivan Bukvić

I am 36 years old. Native of Podgorica and currently working in Belgrade for the National airline company.

My biggest success is the climb to the top of Babin zub, 2277m., which is demanding peak, and it was my third hiking tour, so I would single it as my favorite.

I was member of the mountaineering club "Komovi" from Podgorica.
As for hiking tours I would single out some: Babin zub, Vrmac, Vrsuta, Treskavac, Lovcen.
