

## **Radojko Bošković**

Rođen u selu Velika (zp Murino) 1960 godine.

Živim u Podgorici.

Diplomirao sam na Ekonomskom fakultetu u Podgorici i na istom magistrirao na smjeru za računovodstvo i reviziju. Radim u Institutu računovođa i revizora Crne Gore. Bavim se pisanjem tekstova za računovodstvene i poreske praktikume, držanjem predavanja na seminarima i obukama kao i pružanjem konsultantskih usluga iz oblasti računovodstva i oporezivanja.

Planinarim oduvijek (uostalom, rođen sam i živio sam na planini) a, više od 10 godina, veoma sam aktivni član PK „Gorica“ iz Podgorice . Planinarim povremeno i sa drugim klubovima od kojih bi istakao PK „Montenegro guide“ iz Podgorice.

Najveći planinarski uspjeh mi je da još uvijek mogu da planinarim i da planinarim redovno. Planinarim po Crnoj Gori gdje sam, uglavnom, sve sam obišao, naravno, uključujući najviše vrhove Prokletija, Durmitora i Komova. Zbog profesionalne zauzetosti izuzetno sam malo planinario van Crne Gore ali sam, nekim sticajem okolnosti, uspio da se obretem na vrhovima: Triglav, Musala, Vihren i Jezerski vrh (*Maja Jezercë*).

## **Radojko Bošković**

Born in 1960, in the village Velika, municipality Murino. Lives in Podgorica, Montenegro.

Graduated from the Faculty of Economics in Podgorica. MA in accounting and auditing. Works at the Institute of Accountants and Auditors of Montenegro.

He has always been a mountaineer (after all, he was born and lived on a mountain) and, for more than 10 years, he is very active member of PK “Gorica” from Podgorica. He occasionally hikes with other clubs, of which he would point up PK “Montenegro guide” from Podgorica.

His biggest mountaineering success is that he can still hike and hikes regularly. He is hiking in Montenegro, where he mostly hiked all the mountains, of course including the highest peaks of Prokletije, Durmitor and Komovi. Due to his professional busy schedule, he hiked very little outside Montenegro, but due to some circumstances, he managed to get to the peaks: Triglav, Musala, Vihren and Jezerski Vrh (*Maja Jezerce*).
